SECTION 02

2.1 English Corporate Typeface

Proper Selection of Primary Font & in Detail

Morocco Coffee has selected (PF BeauSans Pro) font as our primary corporate English font; which allows us for representing our messages from the enthusiastic to the practical understanding. Using the careful use of typography reinforce our brand personality to valued customers.

PF BeauSans Pro

The design of Beau Sans was inspired by Bernhard Gothic which is considered one of the first contemporary American sans serifs and was designed by Lucian Bernhard in the late 1920s. Panos Vassiliou came across this font while attempting to reduce the design elements of a text typeface, by introducing Bauhaus-like minimal forms to the characters, to appear classy.

The first version was completed back in 2002 and introduced one year later in Parachute's 3rd catalog, under the name PF Traffic. Some time later it was decided to make a few improvements but the project was so carried away that the new typeface which emerged needed urgently a new name. Beau Sans Pro is a modern sans-serif family of 16 fonts which includes true-italic.

2.2 Arabic Corporate Typeface

Proper Selection of Primary Font & in Detail

Morocco Coffee has selected (The Mix Arab) font as our primary corporate Arabic font; which allows us for representing our messages from the enthusiastic to the practical understanding. Using the careful use of typography reinforce our brand personality to valued customers.

The Mix Arab

The idea of matching a western designer with an interest in mixing Latin styles with an Arab calligrapher with the same interest in mixing Arabic calligraphic styles, both proficient with lettering yet interested in more simplified contemporary design, seemed like the perfect solution at the time, and the great artwork.

This choice and team also fitted the idea of developing and improve the Arabic version of the hybrid family member of the Thesis font family – The Mix Arab.

TheMix Arabic is one of the most successful contemporary Arabic fonts. Since its release, it has been used by several cultural institutions in the Arab World, including the Sharjah Art Foundation.

4.1 Corporate Identity Details

Corporate identity management literally means managing your corporate identity. It is making sure that the corporate identity is applied correctly, consistently to each application, taking into account the costs. We often see many applications are being created under supervision of or in different divisions. Without corporate identity management this easily results in the corporate identity being applied in different manners. Therefore a central corporate identity management is a necessity. It is the only way for your organisation to build and maintain a strong brand.

Our design components our logo, colors, typography and graphics have been carefully crafted to bring The Morocco Coffee brand to life. The schematic applications on the following pages from stationery to brochures, from advertising to way-finding demonstrate the effectiveness of these components in action.
